
First Tee Innovators Forum

In an increasingly interconnected world, the choices we make locally have significant global implications. First Tee Innovators Forum sets to empower First Tee teens to develop a meaningful service project in their communities focusing on raising awareness on global issues. Selected participants will have the opportunity to learn from global industry leaders through interactive workshops and small-group breakout sessions. The teens will also be assigned a Global Citizen Year mentor throughout the summit experience in order to apply their newly acquired global perspectives. By bringing together exemplary participants across the chapter network, the Innovators Forum provides a distinctive educational experience, one geared both to students' exceptional abilities and their need for peers who share a similar passion for learning.
